1. From a lesson in your three-week unit, provide several samples of student work on this assignment. They should reflect the full range of student ability in your class and include feedback you provided to the students on their papers.
2. Write a brief response about the assignment, answering the following questions
  - How does this assignment relate to students' prior knowledge?
  - How did the assignment help students develop their understanding?
  - What do the samples of student work tell you about the students' level of understanding?
  - What do you plan to do next with these students?
