

MESSAGE TO PARENTS OF 6TH GRADERS:

Ohio Department of Health state immunization requirements for all 7th Grade Students:

A Tdap booster (Tetanus, Diphtheria, Pertussis) MUST be administered prior to entry into 7th grade.

New REQUIREMENT: The first dose (of the 2-part) Meningococcal vaccine is now required for all 7th grade students.

Please check with your child's physician, or you can call Rita Baker, R.N., District Nurse, at 676-8617 with any questions regarding immunizations.

****We will have an Immunization Clinic here at Stanton on May 6th at 11:00am**. A packet will be mailed home to only 6th grade parents whose child needs the vaccines. This fall, Kent City Schools will follow the state guideline requiring that proof of these immunizations, be given to the school clinic by the 15th day of school, which is September 11, 2019. If proof of vaccines is not received by this date, your child may NOT attend school.**

Please turn in parent permission form to the school clinic ASAP
