

**KENT CITY SCHOOLS**

*Where Excellence is a Tradition*

## **Mark Your Calendars - helping children deal with trauma**

We encourage all parents to attend a free presentation by **Dr. Joe Hendershott**, a nationally known expert on trauma and its effects on children and teens. The presentation takes place on **Wednesday, January 30, from 7 to 8 p.m.** in the Roosevelt auditorium.

Dr. Hendershott's definition of trauma includes students dealing with abuse, neglect, violence and poverty, as well as those affected by death, divorce, bullying or rejection. He offers unique insights into the effects of trauma and ways to help all students learn and succeed. Please consider attending.
